## About this product

Swifts reside in the UK for three months each summer and nest most commonly in the eaves and gables of our buildings. Many modern and renovated buildings are not suitable for swifts and their future survival may be threatened unless we take action. Internal nest spaces incorporated into new buildings and renovations are a great way of providing habitat for these amazing birds.

The Swift Box is a solid box made of insulating concrete with an internal nesting space, which can be incorporated into the fabric of a building as it is built or renovated. The box is designed to be unobtrusive and aesthetically pleasing.

This box is made to order and faced in brick to match your building. For certain brick types it may be necessary for you to send your own bricks to be used on the face of the box (six required for each box). This is also recommended if you require the bricks to match your own exactly, as slight variations between batches do occur. Please let us know your brick code or name at the time of ordering. We will then let you know if bricks will need to be provided or if they can be sourced by the manufacturer.

The box is supplied unpointed so it can be matched as closely as possible to the building.

**Please note: Bespoke boxes are shipped direct from the manufacturer and incur a minimum shipping cost of £30 (ex VAT) for one to ten boxes. Shipping may be higher for some areas. Delivery time is expected to be 2 weeks.**

For every Swift Box purchased, a donation is made to the RSPB.

## Specification

Entrance dimensions: 33 x 65 mm
