2019/4444/P	Kris White	23/09/2019 18:02:10	OBJ	<p>Concerned about the change of use for the Day Care centre to full time residence. Mainly the loss of the TRA facilities. This estate struggles to develop a community feel as it is, with the loss of onsite TRA meeting space the participation in TRA meetings will become more difficult. Meeting offsite makes it harder for elderly and disabled residents to attend, as well as working residents. A better use would be to turn this into a community building to be used by residents of Mayford (and potentially neighbouring estates) to develop a community feel, get to know neighbours and provide a space for residents to meet, both in TRA and socially. (eg in school holidays could be great location for kids to participate in activities).</p> <p>This daycare centre is located in a very tight space, with windows looking into peoples flats. There would be no privacy for existing Mayford residents or daycare residents. The road is noisy and would cause stress for residents with sensory issues. Even with the windows closed I often can't hear the TV or radio over buses, cars and the constant sirens. This estate also has a crime issue. I would not be willing to let a vulnerable relative move onto this estate (I would move if I could).</p>
