FROGNAL COURT / FINCHLEY ROAD NW3 5HG

I would like to object to this development over the buildings on this estate that are situated on Finchley Road. I have been a leaseholder of a flat [REDACTED] since 1985 which has become a home for my grandchildren.now I have moved away.

I know that conditions were appalling whilst the estate was a building site with very restricted access, noise and water penetration and the work in my building is still not finished, the lifts, for which I paid a considerable financial contribution are still not installed and working and the hall and stairways are a building site.

This must not be repeated in the other buildings, the leaseholders and resident do not deserve this.

There are commercial premises (shops) on the ground floor and access to them will be seriously hindered, and may even result in closure, whilst,also,seriously impinging on the safety of pedestrians on this very busy footpath, which is used by many residents from the surrounding area to reach the bus stop and underground.

The flat roofs on the buildings could be used for solar panels which would help us all and be environmentally friendly. These new apartments will be of little value to anyone but the developer and without a lift will only be suitable for young adults who are very fit.

PLEASE REFUSE THIS APPLICATION.

(Mrs) J. Oppenheimer
