

Hello

My name is Tomo Takabatake. I'm a resident at 6A Camden Square, London NW1 9UY.

A tree (*Gleditsia triacanthos*) in our back garden is due for a prune. We are applying for permission as we are in a conservation area.

I have spoken to an Arborist who has recommended the following works: 1.5-2m crown reduction (20%) in order to reduce branches overhanging 2 neighbouring properties and create a more compact shape.

Kind regards
Tomo
