

Brunswick Centre, London WC1N
Video door-entry system cabling

SAMPLE TRUNKING INSTALLATION

Sample square section trunking following route of existing retained tubular trunking outside 134 O'Donnell Court

Sample 50 x 50mm square section galvanised steel trunking to run adjacent to and immediately in front of retained tubular trunking. Existing trunking, junction boxes, etc are effectively screened from view by new trunking.

Cable entry to flats is via existing junction box and retained tubular trunking to head of door frame.

Detail at downstand beam, with junction box and retained trunking behind

New trunking fixed in front of retained trunking
