

Dear Patrick,

I live in Flat 4, 28 Percy Street, W1T2DB London and have just learned about the planning permission of 30 Percy Street.

I believe they have proposed a roof terrace on the first floor, increasing the height of the existing wall by 1.6m.

I would like to object to this application as it would adversely affect my privacy and quality of life in my property.

Please let me know how to proceed.

Many thanks,

Julia Thannheiser
