

KEY

- Trees to be retained 
- Trees to be removed 
- Permanent Protective Barriers 
- Tree Protection Box 
- Ground protection to remain in situ for the duration of the build 
- Suggested Temporary Storage/ Site Office Areas 

Note remainder of driveway area is existing hard stand.
No further protection is required to the current hard standing, unless it is considered that required machinery will damage this hard stand. If so ground protection will be required to protect the whole area of existing hard stand.

Status: FINAL
