2019/3764/P	A.J.S.Jennings for Bloomsbury	30/09/2019 15:01:17	COMMNT	We are opposed to the proliferation of air conditioning equipment adding to environmental pollution. We also note that the existing shopfront has external roller shutters which are inappropriate for any conservation area and assume that this will not be allowed to continue in the current plan in which case we would object.
