2019/1697/P	Barbara Dohmann	03/10/2019 12:40:37	COMNOT	<p>I repeat my objection, one of 80 objections, to the previous scheme which has not been materially amended. It offends National and Borough Planning law and regulation and simply ignores that we live in a conservation area. Traffic congestion both during building and thereafter will be appalling in Froggnal, which is already a toxic area during rush hour and beyond. The felling of trees at a time when it is national policy to protect against climate change, increase green space and habitat for wild life and enhance the quality of the air we breathe is unforgivable, but also unlawful. I adopt the points made by Rupert Terry, Chairman of the Reddington and Froggnal Neighbourhood Forum.</p> <p>If planning law and policy are observed planning permission must be declined.</p>
2019/1697/P	Dr Stoddard Martin	03/10/2019 14:33:01	OBJ	<p>Along with numerous neighbours, I object to this development on several grounds. Destruction of trees, other foliage and garden space continues the process of urbanisation of this threatened corner of 'leafy Hampstead'. It is not only an aesthetic impoverishment but has consequences for traffic and pollution, already a serious problem on our road, especially at rush hours and on account of the nearby schools, as well as the industrial style gym at University College School. Construction of such houses in the location suggested bunches up living space ever more tightly and seems purely speculative given diminishing pressure on housing here since the Brexit referendum. (Consider for example the quantity of empty houses higher up Froggnal.) One might also point out that this application is essentially a second or third try-on of one that was submitted before and opposed by the neighbourhood at large. How many times are we going to be forced back to consider a development to which previous objections have not changed? At some point the repetition begins to seem like a form of harassment.</p>

2019/1697/P	Belinda Bruh	03/10/2019 18:16:18	OBJ	<p>Along with so many of my very concerned neighbours and their objections. I would also like to highlight a few of my many personal concerns to this development and would strongly like to object to this. Firstly, this is not only going to cause further stress to our streets traffic (ArkwrightRd/Frogna) but as well as the pollution which is already a serious problem on our road, especially at rush hours and on account of the nearby schools. Secondly, the destruction of trees, other foliage and garden space will sadly be a threat to our corner of leafy Hampstead. Last but not least, I am totally horrified to have just been made aware by my own neighbour at 27 Arkwright Rd that a ramp will be built between 27 and 29 of Arkwright Road, on which everything will be transported on a mechanical conveyor belt running down the entire side of the communal fence. This is going to be our life hell, with continual noise and disruption coming from both ends. I am totally distressed by the fact that my second bedroom wall is literally the side wall that is next to this running belt. Not to mention noise of the mechanical conveyor belt running, the builders and trucks loading and off loading; this disruption and chaos will be our nightmare in Arkwright Road. Seriously, I hope the council would take on board all of our concerns and would consider protecting our whole neighbourhood. This development has been previously objected and has not changed. Thank you.</p>
