2019/3203/P	Linda Sluys	05/10/2019 07:15:39	OBJ	Strongly object. The scheme crams too many flats into what was once a family home prior to its current conversion to two flats. This seems to be designed to make maximum profit for the owner with no regard for quality of life for the future tenants. Furthermore, where is the space for bins to hold the rubbish that this number of dwellings will produce. Demand for water will increase and strain on local medical services etc. I
