Subject: Objection

Good evening

I wish to state my objection to the proposed large events space with late licensing at Space House. I also think that calling for a meeting with residents on such short notice was slightly underhanded. Discussions with residents is imperative and further meetings, assuming there will be further consultations, should have enough notice for residents to make attendance arrangements.

We aa residents have a right to a decent nights sleep and the right of limited noise and disruption. Your proposal does not reflect this.

We all know that the small notices on licensed premises asking patrons to respect neighbours, when leaving late, is of no use, as patrons using mind altering substances such as alcohol could not give a jot.

There is also all the other noise making additions like rickshaws, deliveries, Uber taxis and waste collection to consider.

Kind regards
Marion Pennifold
