Subject: 9 daleham mews dispute

I am the owner of 9 daleham mews (nw3 5db) and i wish to dispute this application the planned erection would effectively get these householder to end up looking through my property windows limiting my tenants privacy as well as diminishing massively the light coming through the windows for many hours in the day . this would make my property value go down massively as already the windows are getting little light . this would make my property almost limit my ability to rent the property with such a light and privacy issues!

please prevent this application to go through !
application no 2019/4295/P
