Hi Ben,

I am writing to you to in regards to opposing the application to run 150/200 lorries a day down Stanhope street as this will affect many of us as well as myself as a resident, and my children who daily attend school and supplementary school, and parking for myself and my family members will become very difficult. It is currently difficult and a huge inconvenience already due to the constant road closures. I do not want any more inconvenience than what is already taking place.

Regards,
