Reason: - As required by regulation 2(1) and Schedule 2 of the Town & Country Planning (Control of Advertisements) (England) Regulations 2007.

#### Informative(s):

- 1 Reason for granting permission-

The proposed illuminated fascia and projecting signs are considered acceptable in terms of size and location and appropriate in proportions, design and method of illumination as they respect the proportions of the building and the neighbouring shop fronts. The proposals are sympathetic to the host building and surrounding area of Camden Town. Whilst illuminated signs have some impact in terms of light spill, the signs are replacing existing signs like for like, which are in a typical position, at a low level of illumination and the illumination would be limited to lettering and logo only. On balance, they are not considered unduly dominant in this commercial locality.

In terms of size, siting and method of illumination the signs are not considered to disturb neighbouring occupiers. As they are in a typical location and at a low level of illumination, they are not considered hazardous to road users raise no public safety concerns.

No objections have been received prior to making this decision and the site's planning and relevant enforcement history has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policy D4 (Advertisements) of the Camden Local Plan 2017. The proposed development also accords with the policies of the London Plan 2016 and the National Planning Policy

Framework 2019.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2019.
