

<b>Application No:</b>	<b>Consultees Name:</b>	<b>Received:</b>	<b>Comment:</b>	<b>Response:</b>
2019/5122/T	Kevin Gude	13/10/2019 14:47:46	OBJ	I object to the proposed plan. The photograph accompanying the application is misrepresentative, in that it appears to show the area to the east of the tree to be felled, not the tree itself and is viewed from a single adjacent property. The tree that appears to be the subject of the application is a considerably larger, maturing specimen than that shown in the photograph. No justification has been provided in the application for its removal, either in the context of the surrounding grounds, current undeveloped state or after its proposed / postponed redevelopment. Until both of these have been provided and considered, there is no sound basis on which to agree to grant the permission being sought.
