Subject: Application 2019/4700/HS2 - UCLH Comments

Dear Camden Planning

Re planning application 2019/4700/HS2, please find below the comments from UCLH on the proposals:

Whilst UCLH supports projects of national significance, we need to ensure that we mitigate the risks to the hospital and our patients and would like to put a holding objection on the application pending further dialogue with HS2 to clarify the following:

- The daily volume and numbers per hour of vehicles using the Grafton loop
- Measures to mitigate the use of the Grafton Loop
- Assurance that the additional vehicle movements will not cause congestion on the top part of Gower Street once Gower Street goes 2 way as a result of the West End Project
- Assurance that there will be no material impact on blue light, patient transport or pedestrian traffic to UCH campus having regard to the recent opening of UCLH Phase 5 and the Autumn 2020 opening of UCLH Phase 4.

Kind Regards

[REDACTED]
