

Dear Sir/Madam,

I wish to object to the newly submitted plans for the Fire Station at 36 Lancaster Grove, NW3. The destruction of internal machinery will be a further desecration of a fine building, as well as leading to an intrusive presence of surrounding houses with the building of a balustrade around the central tower. The application was refused once and I strongly urge the planning department to argue against this creeping development. The original application was for 11 units. I believe it is now in excess of 16. It is time to call a halt.

Yours sincerely,

Harold Lorenzelli.

63A Lancaster Grove,  
NW3 4HD
