

Application No:	Consultees Name:	Received:	Comment:	Response:
2019/4965/L	Diahann	26/10/2019 17:23:23	OBJ	<p>I object to the resubmission of this application to convert the Tower into a one bedroom flat with a terrace. Before I list my objections I would like to say that the sign re. Planning application</p> <ul style="list-style-type: none"> ¿ only went up this week (commencing 21st October) when it should have gone up several weeks ago(3rd October). Many residents are away as it is half-term and so will not have had time to review the application ¿ There was no sign positioned where the people most directly affected live opposite but further along the way (previously, notices had been posted roughly opposite my house at 69 Lancaster Grove but nothing was posted there this time). Why did this not occur? ¿ Also there are no planning notices on Eton Avenue where houses and a primary school are affected <p>Regarding the actual application:</p> <p>The Tower is part of an important Grade 2* listed building, a well known historic example of a fire station in London</p> <p>Designing different areas within the floors (and adding covers that can be lifted) to demarcate the "void" do not make up for the transformation of the original structure.</p> <p>Scrutinising the plans, it is clear that the attempt to maintain the integrity of the original design has resulted in a conversion with very little merit. The floor areas are simply too small, with the plan demonstrating the poor aesthetics and limited space options ¿ i.e not suitable for a one bedroom flat.</p>
2019/4965/L	L Bleasdale	26/10/2019 12:40:11	COMMNT	<p>I am suprised that the developer is trying at this stage of the development to attempt to remove chimneys on this listed building. Where is the advice of English Heritage - it does not appear on the email to which it is supposed to be attached ?</p>
