Dear Sir/Madam

DECISION

Planning (Listed Building and Conservation Areas) Act 1990

Listed Building Consent Granted

Address:

**35 Downshire Hill
London
NW3 1NU**

Proposal:

Internal works include removal of WC wall and door and replacement with new window.
Drawing Nos: Site plan, 1910 SO2 (existing), 1910 PD01C (proposed), 1910 PD02 (window)

The Council has considered your application and decided to grant Listed Building Consent subject to the following condition(s):

Conditions And Reasons:

- 1 The works hereby permitted shall be begun not later than the end of three years from the date of this consent.

Reason: In order to comply with the provisions of Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:

Site plan, 1910 SO2 (existing), 1910 PD01C (proposed), 1910 PD02 (window)

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 3 All new work and work of making good shall be carried out to match the existing adjacent work as closely as possible in materials and detailed execution.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 Reasons for granting listed building consent:

The application site comprises a rear projection - probably a former scullery - of an early-19th-century, semi-detached house, listed at grade II and making a positive contribution to the Hampstead Conservation Area.

The applicant wishes to demolish an internal partition forming an outside lavatory and replace its external door with a window, so enlarging the internal space.

The rear projection has already been extended sideways, and has a traditionally detailed lead roof, visible from inside the house. A proposal to install an incongruous flat roof light in this has been negotiated out of the scheme. Internally, a nib is also to be retained to indicate the previous footprint of the rear projection. Since the existing extension is not an historic volume and is already finished in Histoglass slender double glazing, that is considered acceptable in the new window.

Any works other than those specifically mentioned in the consented drawings are unauthorised. If further works are found to be needed, the permission of the council's conservation team must be obtained in writing, or further listed building consent may be required.

The proposed works will not harm the special interest of the grade-II-listed building.

The application has been advertised in the press and by means of a site notice, whereby there were no consultation responses. The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London

Plan 2016 and the NPPF.
