Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 The application site is a grade II listed detached house by Harry B Measures for William Willett and Son, builder-developers. The building is located in the Fitzjohns Netherhall Conservation Area, and is listed as dating from c1886. The property comprises two storeys with an attic storey, and has been divided into flats. It is constructed of red brick with roughcast render to part of the first floor storey, and has rubbed brick dressings, string courses and a tile roof.

The proposal is for the installation of a stairlift in the communal stairwell to serve Flat 4 located at attic level. The existing staircase has a modern vinyl floor covering. The stairlift will be fitted to the staircase from the first floor landing to the attic level. Whilst there will be a requirement to screw into the stair, this will be carried out to minimise impact on the historic fabric. The works would be reversible in terms of methods of fixing. The works have been justified and will not harm the special interest of the listed building.

It was not necessary to undertake public consultation on this application as the works are of an internal nature only to a grade II listed building. The site's planning history has been taken into account in making this decision.

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policies D1 and D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework.
