

VGSB30

Technical Data:

Precultivated UK grown vegetation blanket, containing 16 species specifically chosen for extensive green roof applications.

Grown on 20mm substrate base on a carrier membrane.

16 Species sown (subject to seasonal variations)

Sedum - Acre, Aizoon, Album, Ellacombianum, Floriferum, Hispanicum, Hybridum Czar's Gold, Montanum, Oktoberfest, Oreganum, Pulchellum, Rupestre, Sexangulare, Spurium, Telephium Fabaria, Stoloniferum

Physical Properties

Composition:	Pre grown blanket encompassing mature sedum plants grow from rhizomes in 20mm deep growing medium on a Geo composite polypropylene carrier
Plant height:	20-50mm dependant on growing stage of sedum
Weight (Dry):	15 Kg/m2
Weight (Saturated)	20 Kg/m2
Sizes:	1m x 1.2m rolls
Consignment size:	Max 20 Rolls, 48m2 per pallet

System considerations

Instant vegetative cover for Extensive Sedum Blanket Systems

Low maintenance, shallow rooted and non invasive

Sky Garden recommends annual maintenance of sedum green roofs to remove invasive/unwanted species to ensure system functionality and sustainability.

Additional information

Bespoke mixes can be grown on request
