Subject: the CMP for 100 Avenue Road

Dear Mr Coltrini,

I wish to register the strongest possible objections to the current plan, which will be hugely detrimental to this heavily residential area, and to the health and well-being of its residents of all ages.

The idea of 25 x 54 foot construction lorries a day for 2 years polluting our Open Space is nothing other than a near-criminal destruction of a well-thought out residential and social area, with its excellent library and gym.

You should all be ashamed of yourselves; you probably are, though too bone-headed to admit it.

Yours sincerely,

Karin Fernald
