Subject: 2017/6638/CMP - Carlo

I OBJECT TO THE NEW PROPOSAL BECAUSE:

- >
- > 1. 25 x HGVs, including 11 giant 54ft articulated lorries, even if
- > ULEZ compliant, will inevitably increase the already over limit NO2 levels even further, and so negatively affect the health of those using the public path and children's play area close to the hoardings. All the users of the Green will be negatively affected. This is an area used by schools for the kids' sports activities and by all local families
- > 2. A 425% increase from the originally planned 7 smaller 34ft lorries to the currently proposed 25 - including 11 x 54ft articulated) lorries is an unacceptable material increase.
- > 3. The pupils and students of the many schools in the area as well as the residents of the square - including the care home Mora Burnet House- will suffer increased pollution and disturbance due to the increase in construction vehicles.
- > 4. All vehicles should be restricted to the other side of the site along the A41 as studies have shown that even 20 meters closer to polluting traffic will increase levels by 30pct.
- >
- > My son developed asthma related to pollution and I hope that my complaint will be heard.
- >
- > Regards
