Subject: 2017/6638/CMP - Aggie

I object to the new CMP proposal because:

It will have a negative effect on the health of residents, specifically children playing in the area and residents of the care home. The increase in number of lorries is unacceptable and will have a negative impact on the community. Users of the public path and the residents will be affected and I believe all vehicles should be restricted. This is already an area with a lot of traffic (Finchley road is near by with many buses and lorries). Please do not put developer's interest before interest of the people. This will affect the health of residents and the noise will be terrible.

KRG
