Informative(s):

- 1 Reason for granting listed building consent:

3 Great Ormond Street forms part of a terrace of 4 Grade II* listed properties, dating from c1710-15 and restored in 1980 by Donald Insall & Associates for Rugby Estates. The properties lie within the Bloomsbury Conservation Area. This conservation area covers approximately 160 hectares and is widely considered to be an internationally significant example of town planning, noted for its formally planned arrangement of streets and contrasting leafy squares. The application seeks to install a stand-alone disabled shower cubicle in the position of an existing bath in Flat C. The structure will not attach to or impact on historic fabric on any way. Existing drainage will be utilised. There will be no impact on the historic floorplan of the property. The proposed works will not harm the special interest of the grade-II* -listed building.

The application has been advertised in the press and by means of a site notice, whereby there were no consultation responses. The site's planning history has been taken into account in making this decision. Historic England responded to the consultation, authorising the council to determine the application as we see fit. The letter has been stamped by the NPCU.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.
