2019/4961/P	Edward Brooks	12/11/2019 16:10:05	OBJ	Although we have a conservatory measuring the same length as the proposed extension and will not be so affected as our neighbours, we oppose it on their behalf. We must make negative comment on the width of the proposed extension as being twice the width of our extension and not being glass like ours , will look as though someone has built a small bungalow in the garden. There are at least two reasons why this proposal should not be allowed. Firstly, once a building of this size is permitted then there will be no reason not to allow a flood of small bungalows to completely destroy this "Garden Suburb". All upper story neighbours will have their much appreciated view of the gardens completely destroyed.
