Dear Sir/Madam

DECISION

Planning (Listed Building and Conservation Areas) Act 1990

Listed Building Consent Granted

Address:
14 Argyle Street
London
WC1H 8EG

Proposal:
External alterations including installation of gate and metal stair from street to basement level in front light well.
Drawing Nos: 572 01, 416.04, 572 02, 572 20 B, Design and Access Statement dated August 2019

The Council has considered your application and decided to grant Listed Building Consent subject to the following condition(s):

Conditions And Reasons:

- 1 The works hereby permitted shall be begun not later than the end of three years from the date of this consent.

Reason: In order to comply with the provisions of Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans: 572 01, 416.04, 572 02, 572 20 B, Design and Access Statement dated August 2019

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 3 All new work and work of making good shall be carried out to match the existing adjacent work as closely as possible in materials and detailed execution.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 The installation of a gate in the existing front lightwell railings is considered to represent a minor intervention that would not cause harm to the significance of the listed building. Similarly, the proposed metal staircase would appear as a lightweight addition that would run across the front of the property at lower ground floor level and would not interfere with any of the buildings historic features. Furthermore, the proposed gate would be created by adapting the existing railings, rather than removing a section of them, ensuring no loss of historic fabric would occur as a result of the development. The existing eight over eight single glazed sash window would be retained and refurbished as necessary whilst the entrance door would be upgraded in single glazing, which is welcomed.

Given the above, the proposed alterations are considered to represent minor interventions that would not cause harm to the historic significance of the listed building.

No objections were received prior to making this decision. The planning history of the site and surrounding area have been taken into account when coming to this decision.

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with Policy D2 of the Camden Local Plan 2017. The proposed development also accords with the policies of the London Plan 2016 and National Planning Policy Framework 2019.
