Please provide a brief description of the building or part of the building you are proposing to demolish

A doorway opening is being relocated, meaning a small section of contemporary stud wall is being demolished. This wall is believed to have been built in early 1964, so it not a n original feature of the building.

Why is it necessary to demolish or extend (as applicable) all or part of the building(s) and or structure(s)?

Modern technologies mean students & researchers alike have increased demands on power and data beyond the building's existing capacity. The existing distribution board & racks in room 20 could not sufficiently accommodate the expansion required so a new communications room was needed, as well as upgrading these items. The most efficient location, was within a hallway at the other end of the floorplan, in front of an existing laboratory entrance, which brought about the need to relocate the door to the adjacent perpendicular wall. For security and fire protection reasons this equipment needed to be enclosed in stud walls. The increased quantities of hardware within internal rooms brought about the need for dedicated cooling to each of the spaces, with condensers place in close proximity but added in the least prominent roof locations plausible.

Also include the proposal for their replacement, including any new means of structural support, and state references for the plan(s)/drawing(s).

A 1960's internal stud wall has had a doors-width demolished to insert a new door in its place. Another contemporary door has been infilled to form the back of a cupboard with a stud wall. A few small internal stud walls have been constructed to form the 2 no. "communication" rooms. These alterations are shown by comparing PS00999-SBA-XX-02-DR-A-0910_Existing GA Plan with PS00999-SBA-XX-02-DR-A-0010_Proposed GA Plan drawings. On the roof, an existing AC condenser unit serving Room 21 is being replaced with a like for like unit. Also 2 no. new AC condenser units have been installed to serve the 2 no. new communications rooms. Compare & refer to PS00999-SBA-XX-R0-DR-A-0911_Existing Roof Plan with PS00999-SBA-XX-R0-DR-A-0012_Proposed Roof Plan drawings for these items. Photos are included on the proposed.
