2019/5370/P	Jonathan Byatt	27/11/2019 16:39:53	COMMNT	South End close us a neighbouring residential area to the Royal Free. While supporting the application there are concerns any builders or installers may utilize SEC private parking as informal overflow parking. There are already issues with visitors to RFH and ambulances using SEC as free parking, increasing pollution and noise for residents. Can the private nature of the estate please be impressed upon the workers to preserve the quality of life on the estate. Many thanks.
