Subject: RE: Advertisement application - 2019/5860/A - 53A Neal Street

Dear Tony,

1. Apologies for the blurred drawing – please find enclosed updated & clear image FYI.
2. The existing lights were removed by the landlord – the proposed fittings are new & slightly repositioned.
3. The fascia & projecting sign are the same material. The scorched timber planks are indeed only 25mm thick. They are reclaimed wide timber floorboards.
4. We have taken the 'A' board off the drawings.

I trust the application can now be registered.
