2019/5882/P		03/12/2019 10:27:33	PETITNOBJ E	<p>I strongly object to this development on the following grounds:</p> <p>It is a highly intrusive development that is completely out of character with the surrounding area and community, which will have a major impact on the local community Its height will overshadow adjacent houses and streets. It involves the destruction of green space that is a precious rarity in this part of town, and removes open space that is well used and loved by the local community. It will involve the destruction of many very fine established old trees at a time when trees are desperately needed to counter some of the uncontrolled pollution It is an alienation of public space for private profit, with very little compensatory benefit to the local community, (except for a new school that is in excess of requirements), pandering to the luxury end of the market with almost no additional housing to meet urgent local needs There is little provision for the extra traffic that will be generated. Shameful!</p>
