2019/5625/P		03/12/2019 06:41:14	OBJ	<p>On a good day, my garden used to be filled with afternoon sunshine. The outrigger was then built without any consultation or regard for blocking the light from my garden next door at [redacted] It was presented in the plans as replacing a structure that was already there in the plans, which is complete nonsense as it extends to the boundary and goes up 2 floors. Plants that thrived died because of it. A window was also added at that time that overlooked my garden and invaded my privacy. I strongly object to any further roof height or windows being added to the outrigger as it would not only add insult to injury but almost totally block any afternoon sunshine and light.</p>
