Dear Mr Sild,

Ref: Planning App. 2019/4729/P

I am writing in connection with the above planning application.

We are the owners of Flat 2, 6 Chalcot Gardens.

The original planning permission was for a balcony mirroring the balcony of our property.
The owners of No 5 Chalcot Gardens have knowingly abused the terms of the planning permission for their balcony.

The area has been extended beyond the depth of the balcony and is now being used as entertaining space. It is very close to the bedroom of our flat. When in use this area is causing an invasion of privacy as well as noise problems and, as this entertaining area was erected and in use since the summer months we have first hand experience of the noise and privacy issues.

The planters that have been placed along the depth of the new extension are huge and block the light to the bedroom. One planter would be sufficient to provide privacy for both parties.

We would like to add our voice to that of our neighbors at No 6 and strongly object to this extension.

Photos attached are patio in relation to flat 2 balcony.

Kind regards

Patricia & Robert McIntosh
