2019/5959/L	HCAAC	11/12/2019 12:15:54	COMMNT	Highgate Conservation Area Advisory Committee ask that alternative solutions, if available, should be considered. We are concerned about plumes of vapour emanating from the front basement area of this important property in what is arguably the most significant group of buildings in Highgate. However it is appreciated that there is unlikely to be any planning policy to allow such consideration.
