Dear Tony,

Thanks for your email.

I can confirm the opening hours etc. will be applied internally.

Please find attached a new drawing showing the awning in section and an elevation of the canvas with the company logo with dimensions.

There's 2.3m clear under the awning. The awning opens entirely over private property and the public pavement is 3.8m from the awning when open.

Hope this and the attached information is sufficient for you to positively determine this application.

Kind regards,

Sam Ashdown
