

2 Chamberlain Street
London
NW1 8XB

19 July 2019

Dear Camden Planning,

As the owner and occupant of 2 Chamberlain Street, I am writing in support of the planning application for an air conditioning unit below the stair to the front light well at 1 Chamberlain Street.

I withdraw any previous concerns and objections, and support this unit, on the basis that I have now seen the independently commissioned acoustic report by Philip Acoustics Ltd dated November 2018 (in particular the last paragraph of point 4 of that report) which shows the background street level noise as higher than any noise the shielded unit could produce in its proposed location – which makes it functionable inaudible from my (or any other) residence.

Yours
Sarah Brook
