Dear Sir/Madame

I would like to object to the planning application number 2019/5709/p.

On the planning notice tied to the lamppost outside my house, the site plan bordered in red clearly shows that the property does not encompass the passageway at the rear (see enclosed photos). This red boundary line is exactly the same as in a previous planning application submitted for this property, application number f4/5/b/2006 (see enclosed site plan copy and very clear enlarged drawing). However the current application shows an enlarged boundary which is different to the ones mentioned above, see attached current site plan.
