2019/5848/T	Jonathan Byatt	03/01/2020 07:31:02	SUPC	As a condition of planning approval can the owner of this property please work with Camden's gardening contractors to determine if there is an opportunity to recycle and reuse any of the proposed trees which are requested for felling. In this way the plants and shrubs will not be merely be destroyed and their value lost to the community and wider environment. Such plants which can either be transported if they are healthy to other areas of Camden or Camden Estates or properties, or the the tree trunks used for landscaping within those same Camden properties or parks.
