

RWP01 Specification Notes

This drawing must be read in conjunction with the general notes on drawing 8040.

For replica style doors that have no fire requirement: This drawing indicates the general details of the new door type but must not be used as a fabrication drawing. The contractor must use its expertise to produce accurate shop drawings. **Important: If door has fire requirements see notes on 8040.**

Material: To match existing doors of a similar type (typically Oak).

Lower Panels: Solid timber raised and fielded with moulding as shown in drawing.

Upper Panels: 8 oak veneered ply panels to each door leaf which mimic the glazed panels on similar door types such as E01A.

Finish: To match colour and texture of existing similar door types (such as E01A) as closely as possible. Allow for 6 samples of 200mm x 200mm Oak panel to be stained and varnished to enable colour and texture of existing to be matched. In the first instance, produce two samples and notify the architect when complete to arrange inspection. After inspection further samples may be required to achieve the closest match possible.

Glazing: This is not a glazed door.

Action: Doors to swing in one direction.

Door Handles: New solid brass lever lock handle such as:

Dual Mayfair finish Hilton door handles produced in solid brass, with a satin brass face and polished brass edge, supplied in pairs with follower bar and fixings. Door handle size 153mm x 49mm. Available from https://www.worldofbrass.co.uk/shop/products/hilton_door_handles.htm

Lock: Provisionally allow for supply and installation of high security five lever mortice deadlock case and escutcheons in polished brass finish.

Bolts: Provisionally allow for supplying and installing upper and lower concealed, lever action flush bolts and keep plates. Material and finish to be polished brass. This is to be a heavy duty bolt.

Hinges: 3x Polished brass butt hinge on each leaf - double phosphor bronze washered to match size of existing hinges.

Finger Plates: No finger plates are required. This is to match existing doors of this type which did not originally have this feature.

Kick Plates: Provisionally allow for polished brass kick plates to the lower section of the door.

Notes:
 Drawings are based on survey data and may not accurately represent what is physically present.
 Do not scale from this drawing. All dimensions are to be verified on site before proceeding with the work.
 All dimensions are in millimeters unless noted otherwise.
 Purcell shall be notified in writing of any discrepancies.
