Dear Sir/Madam,

**APPROVAL REQUEST FOR REMOVAL/REDUCTION OF TREES  
CAUSING SUBSIDENCE TO 13 WILMOT PLACE**

Please find enclosed a form requesting approval for potential removal of three trees (and/or their reduction in the alternative) causing subsidence damage at 13 Wilmot Place in the Rochester Conservation Area, which treats all trees as subject to TPOs. Following an insurance claim loss adjusters are recommending removal of the trees in question. Onsite consultation and approval from Camden's tree team is therefore urgently requested so that an appropriate plan can be agreed to mutual satisfaction. Ideally any works should be agreed and carried out before the Spring this year when the growing season resumes and further damage may be caused.

I look forward to hearing from you at your earliest opportunity.

Yours sincerely,
