Ms Alyce Jeffery,
Planning Officer at London Borough of Camden
5 Pancras Square,
London

Sunday 5th January 2020

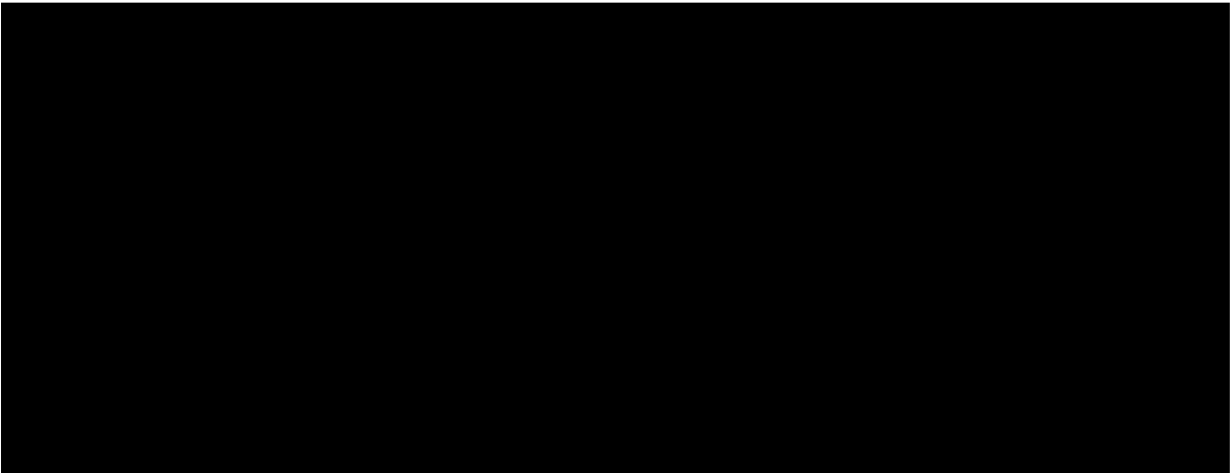

Dear Ms Jeffery,

Re: Application 2019/6064/P

I am writing to formally highlight my support of the retrospective planning permission for the construction of a rear dormer loft extension of Flat B, 52 Sarre Road, NW2 3SL.

The dormer is aesthetically pleasing and in keeping with the surrounding area as it is consistent with the surrounding dormers. Furthermore, the use of extensions has been a good proposal for expanding families in the local area with support being given to these families and this has created a better community ambience. I have repeatedly expressed my views on the extension and the resultant enforcements, like my other neighbours have. The amount of harassment by the council surrounding this to the residents of Flat B, 52 Sarre Road is therefore unnecessary and unfair.

Most importantly, I wanted to also write to highlight my strong professional views of the resultant building work required on the flat, should the council reject the retrospective planning permission, due to the health of the residents' youngest son. I would like to emphasise that I have consent to write this letter regarding his health from his parents Emmanuel and Kate Brandariz.

I would strongly urge the planning department to accept this retrospective planning permission without the need for any building work to be done on Flat B, 52 Sarre Road due to the above reasons. I would be pleased to provide any further information you may require on this with the consent of Nathaniel's parents.

Yours sincerely,

Dr Emma Pascall MBChB, BSc
