2019/5788/P	S Davies	09/01/2020 14:55:12	COMMNT	I object to this planning application as the proposed extension will have an adverse effect on the character of the Conservation Area. It will substantially alter the original design of the property and its relationship with the row of cottages of which it forms a part and will destroy the symmetry of numbers 1 and 2, a classic Victorian pair of semi-detached houses. The loss of the existing porch and its replacement with a bulky, modern side extension which will be clearly visible from the Torriano Avenue approach is inappropriate for the Conservation Area.
2019/5788/P	George Coulouris	09/01/2020 17:11:19	OBJ	As residents of Torriano Cottages we object to the visual impact of the Proposed Front Elevation. The doorway and 'sawtooth brick facade' are totally out of keeping with the adjacent cottages in this designated conservation area.
