

Job Profile Information: IYSS Management Information Officer

This supplementary information for *IYSS Information Officer* is for guidance and must be used for Job Level 3 Zone 2

Camden Way Category 3

It is for use during recruitment, setting objectives as part of the performance management process and other people management purposes. It does not form part of an employee's contract of employment.

Role Purpose:

To be responsible for the collation, monitoring, analysis and timely reporting of performance indicators across the Integrated Youth Support Service (IYSS). To develop, maintain and improve effective performance management information systems across the service. To undertake a range of projects under the direction of the Operations and Resources Manager and IYSS Service managers to support the development of strategy, performance management and practise.

The post of Information Officer is a key role within the integrated service, working closely with Managers across the service to facilitate quality information streams.

Example outcomes or objectives that this role will deliver:

- To ensure that database problems are investigated, diagnosed and resolved.
- To record and where necessary escalate system faults to the Corporate ICT Service Desk or Software supplier where appropriate.
- To assist in the collection and analysis of data and contribute to a range of reports and briefings appropriate to different audiences and purposes and when required present them to a variety of audiences.

This will include lead responsibility for:

- Statutory quarterly returns
- Annual Department For Education returns
- Bi-monthly case worker monitoring (YOS)
- Inspection led monitoring and evaluation

- Data cleaning on IYSS ICT systems.
 - Training staff in IYSS case management systems, including induction and on-going training.
- To support any major system change taking responsibility for the development and maintenance of system user guides, training notes and procedures for the key business ICT systems.
 - To assist with the development and maintenance of a knowledge database of effective solutions of commonly occurring issues.
 - To assist in the maintenance and development of the YOS online guide.
 - To support in the development of an IYSS social media strategy improving the communication, data collection and tracking functions of the service
 - To work closely with the management team to ensure timely and accurate data entry to the IYSS case management system ensuring that data is managed in accordance with the Data Protection Act. Exploring the options for information sharing with internal and external partners to ensure participation reporting is accurate.
 - To manage the administration of the YOS and Early Help case management system, ensuring that updates and amendments from the software developer are applied in a timely manner and that managers are advised of key developments and their impact on the YOS and Early Help data flow processes.

To provide advice and support to IYSS staff on problems relating to case management systems including:

- Recording advice
- Technical fault diagnosis
- Creating/resetting login and passwords

To develop ad-hoc database queries in order to answer information requests from within or outside of the service.

Camden Way Five Ways of Working

In order to continue delivering for the people of Camden in the face of ever increasing financial pressure, we need to transform the way we do things. We call this the Camden Way. The Camden Way is a key part of our transformation strategy often referred to as the transformation triangle which links the Camden Plan, the Camden Way and the Financial Strategy together.

The Camden Way illustrates the approach that should underpin everything we do through five ways of working:

- Deliver for the people of Camden
- Work as one team
- Take pride in getting it right
- Find better ways
- Take personal responsibility
