That the Church should apply for retrospective Listed Building Consent /Planning Permission in respect of the CCTV cameras and associated security lighting already installed at the main entrance to the Swiss Church In London at 79 Endell Street. That the application should include a Heritage Statement and a Design and Access Statement which should draw attention to security and safety issues which makes the need for CCTV coverage of the main entrance to the Church and the internal foyer of the Church absolutely essential. That the Design and Access statement should make reference to the confirmation by Jim Cope of the Metropolitan Police's Design Out Crime Unit that CCTV is essential 1. so that users of the Church can leave the building safely 2. to discourage anti-social behaviour on the entrance steps- including graffiting of the Grade 2 facade, and drug dealing on the steps.
