2019/5839/P	For Belsize Society, Sanya Polescuk	14/01/2020 08:21:43	OBJ	This proposal limits itself on demonstrating its impact on the single apartment within the three story building. It fails to examine the impact of the extension on the host building and its already tiny rear garden. It is therefore impossible to determine if the proposal makes an unwelcome and detrimental impact on the Conservation Area. Until this is done, the permission should be resisted.
