2019/5421/P	Nigel Higgins	24/01/2020 08:16:30	OBJ	This is a prominent building with an overbearing, poorly designed roof extension which has clearly outlived its useful time. Rather than extending the life of this ugly construction grafted onto the roof of otherwise pleasing-looking historic building by giving it aluminium and double glazing, the applicant should seek to improve its design.
2019/5421/P	Josephine Higgins	24/01/2020 08:28:22	OBJ	I often walk past this building and wonder how could have such an unsuitable roof extension been built on top of an otherwise attractive building. I hoped that this application was asking for a permission to replace the existing roof extension with a new, better designed extension . Sadly that seems not be the applicant's aim. Instead they seem to want to extend its durability and that is damaging the Conservation Area.
