Building Segment Combinations

Structure Name	Sub-Structure Name	Vertical Offset from Line for Vertical Movement Calculations	Segment Start	Length	Curvature	Combined Segment
		[m]	[m]	[m]		

No structures have segments combined.

Utility Strain Calculation Options

Neglect beneficial contribution of axial strains : No

Warnings

1 One or more displacement grids, lines or polylines have numbers of intervals of at least 100. Large numbers of intervals will slow the analysis.
2 Multiple excavations have been specified. The displacements resulting from these excavations are calculated by summing the displacements resulting from each individual excavation. No account has been taken of the interactions between excavations (e.g. overlapping zones of influence or 'shielding' of one excavation by another).
3 Embedded Wall Excavation PE1 : Car Lift Pit (Excavation) intersects PE3 : Lightwell (Excavation), and PE4 : Lightwell (Installation).
4 Embedded Wall Excavation PE2 : Car Lift Pit (Installation) intersects PE3 : Lightwell (Excavation), and PE4 : Lightwell (Installation).
5 Embedded Wall Excavation PE3 : Lightwell (Excavation) intersects PE1 : Car Lift Pit (Excavation), and PE2 : Car Lift Pit (Installation).
6 Embedded Wall Excavation PE4 : Lightwell (Installation) intersects PE1 : Car Lift Pit (Excavation), and PE2 : Car Lift Pit (Installation).
7 If an embedded wall excavation is assigned a 'surface' ground movement curve then displacements induced by it can only be calculated for those points that are level with the embedded wall excavation's 'surface level'. Others are ignored. An example of such a combination, for which displacements will not be calculated is Excavation XP3/Side 2/Grid 1/Vertical. This is an example only. There are 59 others.
8 If an embedded wall excavation is assigned a 'sub-surface' ground movement curve then displacements induced by it can only be calculated for those points that are level with or below the embedded wall excavation's 'surface level'. Others are ignored. An example of such a combination, for which displacements will not be calculated is Excavation XP3/Side 1/Grid 1/Vertical. This is an example only. There are 19 others.
