Dear Mark

We are next door neighbours to Number 15 Thurlow Road, and we are based on both the lower ground floor and raised ground floor.

We sent our neighbours a letter expressing our concerns that their current extension plans go beyond our footprint and the other side with a roof slanting towards us

And be a potential eye sore, especially at the raised ground level.

Another concern is that they remove the beautiful beech hedge between us which we have enjoyed the privacy it provides for years prior to them moving in to their flat.

We believe this has enormous amenity value and that this should be taken in to consideration. Photos to follow. Unfortunately they have not responded to our request for a discussion on the hedge either.

We have tried to express our concerns and objections on line but there are technical faults which are preventing us doing this.

Kind regards

Michelle Katz & Simon Frank
14 Thurlow Road
London
