RE: Application 2019/5693/P

I am a ward councillor for Frognal and Fitzjohns. I note the objection from the Heath and Hampstead Society to this application, and that in their view the proposal is "unacceptable" for the Redington and Frognal Conservation area.

I support the objections raised by other leases-holders in the building including the Ground Floor Flat at 8 Frognal that this proposal is "a wholly inappropriate and unwanted addition to an otherwise well-proportioned building". I also note their concern that the "natural progression of the buildings as they slope towards Finchley Rd would be compromised, and the well-balanced original proportions of the house destroyed".

I believe that given these concerns the application should be refused.
