Subject: Re: Application for works to trees covered by TPO 2020/0433/T

Hello

This is regarding a letter that I received for application for felling tree and reducing stem of a tree at Barrie house, 29 st Edmund's terrace, london NW87QH

I would strongly object to felling of any trees in Barrie house. I live on the ground floor and the trees around Barrie house provide shade and cover for the windows

They provide the much needed cool and privacy to my flat. As I stay on the ground floor I can also see that the trees are gone to several birds and squirrels and cutting of any trees will ruin the environmental balance

Last year a tree in front of my house was felled without any notification and that resulted in exposing and creating loss of privacy to my flat on the north east side

I would strongly request to reject the application and if possible plant more trees

Regards

Suvarna shirsat
